

Greetings!

Thank you for downloading this free Idle pack. Morro Motion is a 3D content creation studio that specializes in motion capture, 3D animation, and 3D modeling. We are a team of experienced 3D animators and artists based in Ontario, Canada, and we work to help independent developers fill the gaps in their team rosters.

If you are satisfied with this free Idle pack, we encourage you to browse the rest of our extensive [library](#) of motion captured animations. We offer a wide selection of animations from general movement and combat to more specialized dance or emote motions.

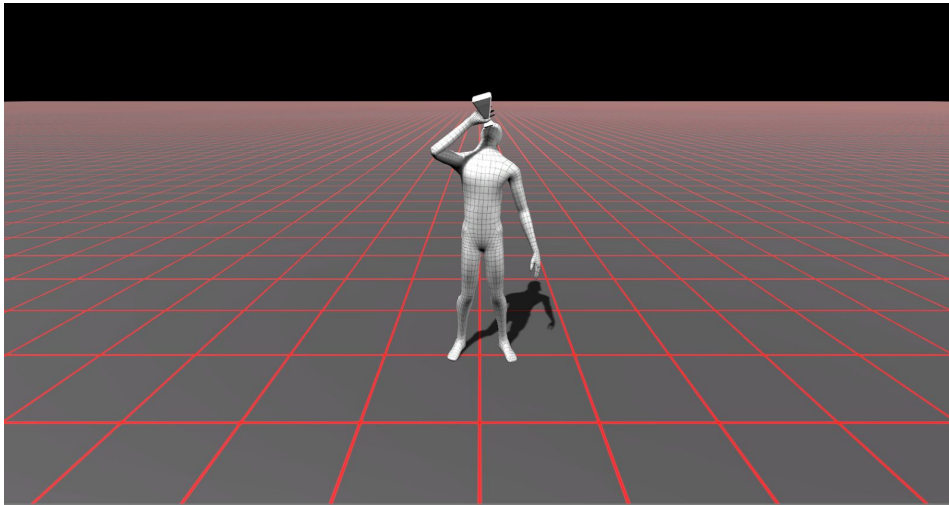

While we try to cover a wide range with our animation packs, we realize that some projects need to go further. Therefore we also offer custom animation, both motion capture and hand/keyframe, along with 3D modeling services. Feel free to check out our [website](#) for our latest showreel, along with [contact forms](#).

With that we hope that you enjoy your current animations and be on the lookout for what's coming down the pipe next!

As always if you have any questions please feel free to contact us at:
